

KAMAL MINOTT

PROFESSIONAL SUMMARY

As a Junior Software Engineer and professional athlete, I possess strong teamwork capabilities coupled with effective communication skills. My fascination with technology, was nurtured from a young age while watching Apple keynote speeches, which instilled in me a love for programming. I have garnered commercial coding experience in languages such as Ruby, JavaScript, React, CSS, and HTML, honing my ability to understand client needs and deliver accurate, efficient solutions. Consistently exceeding the expectations and requirements of my Project Managers and Supervisors, I remain dedicated to expanding my knowledge by continuously exploring new frameworks and implementation strategies.
