

KAMAL MINOTT

Software Engineer | Full Stack Developer

 kamalminott@gmail.com  Portfolio  linkedin.com  +44 7507112479

 London, United Kingdom

SUMMARY

As a Software Engineer and Professional athlete, I possess strong teamwork capabilities coupled with effective communication skills. My fascination with technology, was nurtured from a young age while watching Apple keynote speeches, which instilled in me a love for programming. I have garnered commercial coding experience in languages such as Ruby, JavaScript, React, CSS, and HTML, honing my ability to understand client needs and deliver accurate, efficient solutions. Consistently exceeding the expectations and requirements of my Project Managers and Supervisors, I remain dedicated to expanding my knowledge by continuously exploring new frameworks and implementation strategies.

EXPERIENCE

Full Stack Website Developer July 2023 - Present
Freelance London, United Kingdom

Description:

- Hold consultations with clients to asses what they would want from their website.
- Design A Figma wireframe based on my clients requests.
- Research what frameworks would work best for my clients needs.
- Design website based on agreed upon frameworks and designs with the clients.
- Run tests on code base and features to ensure all code is functional prior to deployment.
- Confirm with client that the website meets their design specifications and functionality expectations.
- Deploy website using Netlify.

Whilst working at WeShape I was contracted out to several companies in which I worked on Front End Development, Back-End Development and Database Management.

Responsibilities:

- Daily Agile Management.
- Frequent Communication with Product Owners & Team Managers.
- Bootstrap/Tailwind Front End implementation.
- Firebase Management.
- GitHub Repository Management.
- **Team Size:** 3

I have titled each of the companies I was contracted to work with during my time at WeShape:

STRENGTHS

Leading & Working in Teams

I thrive in collaborative environments, where my leadership skills shine through, I am effective in team coordination and collaboration. I foster a cohesive team spirit to achieve shared goals efficiently.

Problem-Solving & Analytical

My problem-solving skills, coupled with a keen analytical mindset, enable me to tackle complex challenges with ease. I excel in dissecting issues, identifying root causes, and implementing innovative solutions that drive impactful results.

Adaptability & Continuous Learning

Embracing change is second nature to me, as I possess a high degree of adaptability to evolving situations and technologies. I eagerly absorb new knowledge and skills, ensuring I stay at the forefront of advancements in my field.

HOBBIES

When I'm not training for fencing I often play basketball to help douse my super competitive flames, I also tend to watch a lot of tape of my previous fights to aid me in improving my technique further.
